

# Listing Jobs Using a Symbol Table

This subsection covers the following topics:

- Listing Jobs Using a Symbol Table
- Column Headings

## Listing Jobs Using a Symbol Table

If, during deletion, a message appears:

```
Symbol Table used in Definitions
```

This means that the symbol table is specified for one or more jobs.

**To list the jobs in which it is used**

- Type **W** in the line command input field of the selected symbol table in the Master Symbol Tables window. Press Enter.

The following window opens (example):

```

11.11.01          *** Entire Operations 4.1.1 ***          16:01:01

## Column Headings

Meaning of the column headings:

<b>Column</b>	<b>Description</b>
Network	Name of job network.
Job	Job name.
Type	Specifies whether job is active or not. Possible values:
	Def. Symbol table is specified for job on the master data base.
	Run Symbol table is specified for active job.
Run	If the symbol table is used by an active job, this field displays the job's run number.

You cannot delete a symbol table until you have either specified another symbol table for the job(s) which use it, or deleted all jobs for which it is specified.
